#### **CFA Framework**

 Ten guidelines begin with the first meeting with a family and end with reassessment prior to case closure

#### Ten CFA Guidelines

- 1) Review of existing documentation
- 2) Meet with the family
- 3) Interview children
- 4) Meet with staff of other agencies
- 5) Obtain specialized assessments
- 6) Make judgments and decisions
- 7) Document information
- 8) Conduct ongoing assessment of progress and needs
- Disseminate information to the family and other providers and update the service plan
- 10) Reassess prior to case closure

- Ramsey County, Minnesota's experience developing and implementing a CFA practice model in child protection

### Ramsey County CFA

#### **Core Values:**

- Engagement and relationship building
- Cultural grounding
- Involving families in decision-making

"Golden Thread"

### Ramsey County CFA: A Shift in Practice

- Shift from incident-based approach to assessment based approach
- Shift in from compliance-based assessment approach to a behaviorally based assessment approach

#### Case Process

- Review of information from intake screeners (reporting hotline)
- 2. Conduct Safety Assessment
- 3. Safety Decision-Making Process
- 4. Safety Planning and Safety Management
- 5. Case Transfer Meeting
- 6. Comprehensive Family Functional Assessment
- 7. Behaviorally Based Case Plan and On-Going Services
- 8. Ongoing Assessment
- 9. Case Closure

#### 1. Review of Information

### 2. Conduct Safety Assessment

Information about the family is gathered in 9 domains through interviews during visits

### 2. Conduct Safety Assessment:

#### Nine Domains of Individual and Family Functioning

- Behavioral Health/Mental Health
- General Parenting
- 3. Substance Use/Abuse
- Housing/Environment/Physical and Medical Needs of Caregivers
- 5. Family Relationship/Social Supports
- 6. Child Characteristics/Child Functioning
- 7. Caregivers' Day-to-Day Life Skills and Level of Functioning
- 8. Trauma/Violence
- 9. Caregivers' Employment/Financial Stability

### 3. Safety Decision-Making Process

- <u>Safe</u>: a child is in an environment without any threat of serious harm.
- Unsafe: a child is in an environment where a threat of serious harm is present
- Risk: Children Are Considered to be at Risk when there is a likelihood in the foreseeable (long term) future that family conditions (substance abuse, domestic violence, mental illness, physical illness, uncontrolled anger, impulsiveness) and associated parenting behavior may result in child maltreatment. Center for Advanced Studies in Child Welfar

# 3. Safety Decision-Making Process: Protective Capacities

## 3.Safety Decision-Making Process: Five Criteria

- 1. <u>Severity</u>: what is happening is severe enough to result in pain, serious injury, disablement, grave or debilitating physical health conditions, acute or grievous suffering, terror, impairment or death.
- 2. <u>Vulnerability</u>: the child is dependent upon others for protection
- 3. Out of Control: the family conditions which can affect a child are unrestrained; unmanaged; without limits or monitoring; not subject to influence, manipulation or internal power; are out of the family's control.
- 4. <u>Imminence</u>: a belief that threats to child safety are likely to become active without delay; a certainty about occurrence within the immediate to near future
- 5. <u>Observable</u>: the danger is real; can be seen; can be reported; in evidenced in explicit, unambiguous ways.

# 4. Safety Planning and Safety Management

**Safety Decision: are there threats?** 

Yes or No

### If a safety threat is identified, describe the Safety Plan to control and manage safety threat(s):

In Home or Out of Home

#### **Describe the Safety Plan:**

- 1. Describe the safety threat behaviorally
- 2. What specified actions have been taken to protect each child? (who, when, where, how).
- 3. How will the plan be monitored and by whom?

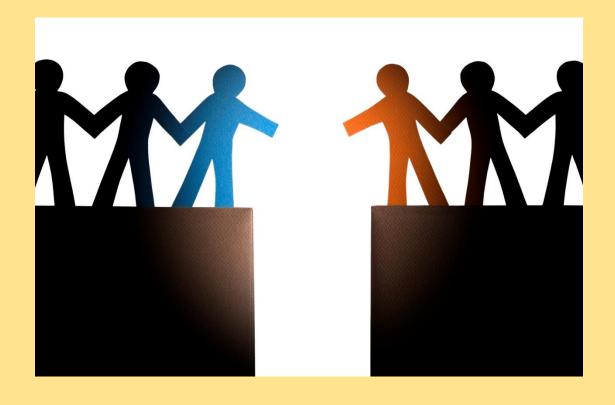

### 5. Case Transfer Meeting
